FOREWORD

The thirty sixth issue of the Statistical Abstract, as in the past is prepared in Amharic and English languages. The Publication presents a wide range of data illustrating various socio-economic conditions of the country. The statistical information contained in the publication provides basic information for policy and programme formulation, evaluation and as an input for undertaking socio - economic activities.

Reliable and timely statistical data are required for the purpose of launching the short, medium and long-term socio-economic development plans and for realizing the free market economy system that is in operation. To support these activities and to coordinate the country's statistical system, National Statistical Council is established. In addition, with the coordination of sector ministries, regional bureaus and international organizations the National Statistical Development Strategy (NSDS) document is prepared and become operational.

Since 1980's the Agency carried-out several socio-economic and demographic surveys in the country and these surveys include Agriculture; Price; Household Income; Consumption and Expenditure; Welfare Monitoring; Large and Medium Scale Manufacturing Industries; Small Scale Manufacturing Industries; Informal Sector; Distributive Trade and Services; Manpower; Health and Nutrition; Demographic and Health; Child Labour; Current Employment /Unemployment,.... etc.

Furthermore, the first and the second National Population and Housing Censuses were conducted in May 1984 and in October 1994, respectively. The data processing, analysis and preparation of the reports have been completed and numerous reports of the census have been disseminated to the users. Similarly, the third National Population and Housing Census was conducted in May and November 2007, and the results of the census have been disseminated to the public. And the first ever Ethiopian Agricultural Sample Enumeration was conducted in 2001/2002 and the census results have been processed, evaluated, analyzed and the agricultural census reports have been prepared at woreda, zonal, regional and country levels and disseminated to data users.

The Agency has also given due attention to improve the existing administrative data flow in the country, and carried-out a study in some Federal and Regional institutions and collected information on statistical data management systems, standards, concepts and definitions used ...etc. Based on this study the Agency is expected to prescribe a system for collection, compilation, classification and methods of improving statistical data.

In conclusion, compliments are due to the various government ministries, agencies, private organizations and individuals for their cooperation in providing the required data for the preparation of this Statistical Abstract as well as to the staff of the Central Statistical Agency for their efforts in producing this edition.

Samia Zekaria
Director General the
Central Statistical Agency

PREFACE

The Statistical Abstract published since 1963, is intended to present a summary of statistical information that reflects the social and economic conditions of the country. The Statistical Abstract being one of the principal statistical publications of the country is expected to serve as a convenient statistical reference as well as a guide to other statistical publications.

Where necessary, the data presented in the tables of the previous issues are revised by updating continuing series and adding new tables. For most parts of the sections trend data are shown for three consecutive year's period.

The contents of the Abstract are taken from a large number of sources and the Central Statistical Agency is responsible for the selection and presentation of the materials. However, the sources of data given in this Abstract have been indicated and most of the data presented in this Statistical Abstract refer to the years 2008/09-2010/11. However, some tables in this series contain estimated data for the year 2011/12.

The Central Statistical Agency wishes to thank all those who have cooperated in the preparation of the publication. Furthermore, suggestions and comments, which may contribute to the improvement of future publications, are welcome.

NOTES ON THE CALENDAR

In Ethiopia various organizations use different calendar years in compilation of statistical series. The following table sets out the relation between the Ethiopian and the Gregorian calendar. In the Ethiopian year there are 12 months of 30 days each and one short month, Pagume, which has 5 days for three consecutive years and 6 days on the fourth year. Moreover, the trade year and the fiscal year are shown in the table.

Throughout the Abstract when figures were obtained for the Gregorian year a split year is shown in the Ethiopian calendar, and inversely, split Gregorian years are shown where the figures are for Ethiopian years. For example 2010 in the Gregorian calendar is the period between Tahsas 23,2002 to Tahsas 22, 2003 E.C and is shown to 2002/03. Likewise, 2002 E.C covers the Gregorian year between September 11,2009 & September 10,2010 and is shown as 2009/ 2010.

Gregorian Calendar	Ethiopia Calendar Year

LIST OF TABLES

<u>SECTION A</u>	<u>PAGE</u>
A.1 Height of major mountains in Ethiopia and their location by region.....	5
A.2 Length of major rivers in Ethiopia	6
A.3 Apprximate size and depth of major lakes in Ethiopia	6
A.4 National parks and their location by region	7
A.5 Sanctuaries and their location by region	7
A.6 Average Maximum and Minimum Temperatures, total rainfall of major weather Stations by month	8
A.6.1 Addis Ababa	8
A.6.2 Bahir Dar.....	8
A.6.3 Combolcha	9
A.6.4 Debre Markos.....	9
A.6.5 Debre Zeit	10
A.6.6 Dire Dawa	10
A.6.7 Gore.....	11
A.6.8 Jimma.....	11
A.6.9 Robe (ARSI)	12
A.6.10 Robe (BALE).....	12
 <u>SECTION B</u>	
B.3 Counted Population size by sex, area and density by region, zone and wereda; July. 2012	17
B.4 Population size of Towns by sex, region, zone and worda July 2012.....	46

LIST OF TABLES

<u>SECTION D</u>	<u>PAGE</u>
D.1 Area under cultivation yield and production of major crops for 2008/09- 2010/11 main Meher Season.....	92
D.2 Total average and production of sugar cane by sugar industries	93
D.2.1 Coffee inspected by Ethiopian Commodity Exchange (ECX) in tons.....	94
D.3 Vaccines produced at NVI to prevent animal diseases during the past ten years million dozes	95
D.4 Estimated number of Cattle, Sheep and Goats by Region 2008/09-2010/11 Private holding for rural area only	96
D.5 Estimated number of Horse, Mule and Ass by Region 2008/09-2010/11 Private holding	97
D.6 Estimated number of Camel, Poultry and beehive by Region 2008/09-2010/11 Private holding	98
D.7 Sell of Fertilizers in Region	99
D.8 Distribution of total number of holders, total Crop Area and Crop Area per holder by Size of holding main season 2008/09	100
D.9 Distribution of total number of holders total crop area and Crop area per holder by Size of holding main season 2009/10	101
D.10 Distribution of total number of holders, total crop area and crop area per holder by size of holding main season 2010/11	102
D.11 Distribution of total number of agricultural households holders, total members and average household size by size of holding main season 2008/09	103
D.12 Distribution of total number of agricultural households holders, total members and average household size by size of holding main season 2009/10	104
D.13 Distribution of total number of agricultural households holders, total members and average household size by size of holding main season 2010/11	105
