Ethiopia () Small Scale Manufacturing Industries Survey 2007-2008(2000 E.C.) (SSIS 2008)

Overview	
Identification	ETH-SSIS-2008-v1.1
Version	Production Date: 2010-04-19 Version 1.0: Edited and non-anonymous dataset for internal use only.
Series	Small Scale Manufacturing Industries the Central Statistical Agency for the fourth time for the reference period 2000 E.F.Y. conducted comprehensive survey in parts of the country.
<p>Abstract</p> <p>In overall economic development, a critically important role is played by micro, small and medium enterprises in the developing world. The vast majority of countries rely on the dynamism, resourcefulness and risk-taking of private enterprises (to which most small scale manufacturing enterprises belong) to trigger, sustain the process, and form the base for private sector led of economic growth. In this regard, small scale manufacturing industries are playing an ever-increasing role in the manufacturing industrial structure of the country. Expansion and development of the sector increases agricultural productivity through providing agricultural inputs and creating demand for agricultural outputs. Furthermore, small scale manufacturing industries play a key role in stimulating other sectors of the economy such as trade, construction and services and in reducing unemployment. Basic data on manufacturing output, input, employment, fixed assets, investment and capacity are of paramount importance for designing and formulating industrial development programs, strategies and policies.</p> <p>Owing to this fact, and in an effort to provide comprehensive, accurate, reliable and timely data on a regular basis on the country's manufacturing sector the Central Statistical Agency /CSA/ has conducted for the fourth time in 2001 E.F.Y. (2008/09) a survey on small scale manufacturing industries.</p> <p>Manufacturing is defined here according to International Standard Industrial Classification (ISIC Revision -3.1) as “ the physical or chemical transformation of materials or components into new products, whether the work is performed by power -driven machines or by hand, whether it is done in a factory or in the worker's home, and whether the products are sold at wholesale or retail. The assembly of the component parts of manufactured products is also considered as manufacturing activities.” For this survey grain milling services are also considered as manufacturing activities.</p> <p>The surveys of manufacturing activities are designed to provide basic information on the characteristics, structure and performance of Cottage and Handicraft, Small, Medium and Large Scale Manufacturing Industries. To attain these objectives, manufacturing establishments are divided into three major groups. These are: -</p> <ol style="list-style-type: none"> Large and Medium Scale Manufacturing Establishments, engaging 10 or more persons and using power - driven machinery. Small Scale Manufacturing Establishments engaging less than 10 persons and use power -driven machinery. Cottage/Handicraft Manufacturing Establishments performing their activities by hand (i.e., using non -power driven machinery). <p>This bulletin presents results of Small Scale Manufacturing Industries survey for the reference period 2007/08 (2000 E.F.Y.). The report provides information on objectives, scope, coverage and content, basic concepts and definitions, survey methodology, training of field staff, field organization and summary tables by structure and performance and problems encountered by Small Scale Manufacturing Industries. Furthermore, the questionnaire and estimation procedures for the survey are attached as an Annex.</p>	
Kind of Data	Sample survey data [ssd]
Unit of Analysis	Establishment/Enterprise

Scope & Coverage

Scope

The Scope of Small Scale Manufacturing Industries Survey to obtain information on number of establishments, number of persons engaged and number of employees by industrial groups, Sex, nationality and occupation, initial and current paid up capital, gross value of production, industrial and non-industrial costs, operating surplus, value added, value of fixed assets, investment, quantity of major manufactured articles and raw materials by industrial group, number of persons engaged by literacy status, highest grade completed and type and duration of training for the country and selected items are presented.

Geographic Coverage

The 2009/10 small scale manufacturing industry survey covered all rural and urban parts of the country except three zones of Affar and six zones of Somalie region. For collecting information about grain mill manufacturing industries both urban and rural part are taken into account however, information on small scale manufacturing industries other than grain mill is collected from urban parts of the country only.

In the rural part of Ethiopia all weredas are covered by the survey. Three grain mill from each wereda are sampled and covered.

Regarding urban parts of the country all kebeles are covered by the survey. In Addis Ababa three grain mills per kebele are covered where as in other urban areas one grain mill per each kebele is covered by the survey. Considering the non grain mill industries, seven from metal product industries and seven from the office furniture industries are covered by sample in each kebeles. Other small scale industries in each urban kebeles are covered fully by census. All in all 8,491 non grain mill industries and 1586 grain mill industries are covered in urban areas where as 1237 grain mills are covered in rural areas.

Universe

All in all 8,491 non grain mill industries and 1586 grain mill industries are covered in urban areas where as 1237 grain mills are covered in rural areas.

Producers & Sponsors

Primary Investigator(s)

Central Statistical Agency, Ministry of Finance and Economic Development

Funding Agency/ies

Government of Ethiopia (GoE)

Sampling

Sampling Procedure

The list containing all small scale manufacturing industries of urban areas were prepared at the beginning of the survey and used as a frame. In the rural part list of grain mill in each wereda were compiled and used as a frame.

Sample Design

The sample design used for both urban and rural part is single stage stratified sample design. The stratas in urban areas are kebeles where as the stratas in rural part are weredas. Sample of small scale industries are selected from each kebele in urban areas and from each wereda in rural areas. Only grain-mills were sample and covered in rural part.

Sample size and selection scheme

Once the list of small scale is compiled, samples were selected by systematic sampling in the field. In urban areas sample of 7 metal industries and 7 office furniture industries were covered from each kebele. One grain mill from Addis Ababa kebeles and 3 grain mill from other region kebeles were sampled. In rural part 3 grain mill from each wereda were covered.

The survey domain is country level, i.e. basic survey results will be provided at national level.

The distribution of covered sampling units is given in appendix I and estimation procedures are given in appendix II.

Response Rate

The rate is, 100.00% both for weredas and grain-mill industries.

Data Collection

Data Collection Mode	Face-to-face [f2f]
-----------------------------	--------------------

Questionnaires

Small Scale Manufacturing Industries 2007-2008 Questionnaires has Seven Parts described as follow:

Item 1 - Address Of Establishment

Item 2 - Particulars Of Establishment

Item 3 - Number Of Persons Engaged And Wages & Salaries Paid In 2000 E.F.Y. (2007/08G.C.)

3.1 Number Of Persons Engaged In 2000 E.F.Y. (2007/08G.C.)

3.2 Wages And Salaries And Other Employees Benefits In 1988 E.F.Y. (2007/08 G.C.) In Birr

3.3 Number Of Permanent Employees By Basic Salary Group* In 2000 E.F.Y. (2007/08 G.C.)

Item 4 - Cost Of Raw Materials Consumed And Other Expenses In 2000 E.F.Y. (2007/08 G.C.)

4.1 Value And Quantity Of Raw Materials Parts And Containers Used In 1988 E.F.Y. (2007/08 G.C.)

4.2 Value Of Other Direct Inputs (In Birr) In 2000 E.F.Y. (2007/08 G.C.)

4.3 Other Indirect Expenses (In Birr) In 2000 E.F.Y. (2007/08 G.C.)

Item 5 - Products, Sales, Other Income And Stock Of Products And Materials In 2000 E.F.Y. (2007/08 G.C.)

5.1 Product And Sales In 1988 E.F.Y. (2007/08 G.C.)

5.2 Income From Services And Other Income (In Birr) In 2000 E.F.Y. (2007/08 G.C.)

Item 6 - Fixed Assets, Investment And Capacity In 2000 E.F.Y. (2007/08 G.C.)

6.1 Fixed Assets And Investment In 2000 E.F.Y. (2007/08 G.C.)

6.2 Yearly Full Capacity

6.3 What Were The Three Major Problems That Prevented The establishment From Operating With Full Capacity

6.4 What Are The Three Major Problems That Are Facing The Establishment At Present

Item 7. Yearly Capacity And Related Problems

7.1 What Percentage Of The Total Full Capacity Did The Manufacturing Industry Utilized In 2000 E.F.Y. (2007/08G.C)

7.2 Annual Production At Full Capacity

7.3 What Were The Three Major Problems That Prevented The establishment From Operating With Full Capacity?

7.4 What Are The Three Major Problems That Are Facing The Establishment At Present

7.5 If The Response To Question 7.4 Is Code 4 Or State The Major Reason

Item 8 - Direct And Indirect Taxes Paid In 2000 E.F.Y. (2007/08 G.C.)

8.1 Production And Sales Taxes Paid (Vat)

8.2 Turn Over Taxes Paid

8.3 Profit Taxes Paid

8.4 Does The Establishment Has License?

Item 9 - I Certify That The Following Information Is Complete And Correct To The Best Of My Knowledge

Data Collector(s)	Central Statistical Authority, Ethiopia (CSA) , Ministry of Finance and Economic Development
--------------------------	----------------------------------------------------------------------------------------------

Supervision

All CSA branch statistical offices were involved in this survey. Accordingly, 25 statisticians from branch statistical offices, 128 field supervisors each supervising on the average 5 enumerators depending on the extent of the area to be covered and 258 enumerators (including reserve enumerators) were participated in the survey. Supervisors did the listing and data collection activity in the rural areas.

Data Processing & Appraisal

Data Editing

A number of quality control steps were taken to ensure the quality of data of this survey. The first step taken in this direction was to prepare questionnaire easier for internal consistency checking or editing both at field and office levels. Furthermore, in the enumerator's instruction manual field editing procedures were attached in order to help in the field editing operation.

The editing and coding instruction manuals were prepared in which editors and verifiers were given training. The training program given to the editors and verifiers lasted for three days.

Fifty-six editors/coders and verifiers performed the coding and the manual editing and verification activities. The verification was done on 100 percent basis. Finally, the edited, coded and verified questionnaires were also re-checked on 25 percent basis by two senior statisticians.

Other Processing

Edit specification were prepared for computer internal consistency checking purposes. The data entry and verification were done on personal computers using IMPS (Integrated Micro Computer Processing System) and CSpro (Census and Survey Processing System) software. About 30 CSA data entry operators and 4 data entry supervisors (in two shifts) were participated for this purpose for 15 working days with close supervision of the activities by one statistician and one programmer. Then, the data entered was cleaned by personal computer using the computer edit specification in combination with manual editing for some serious errors. Finally, the tabulation of the results of the survey were processed using the same software by one programmer with assistance from subject matter personnel.

Accessibility

Access Authority	Central Statistical Authority, Ethiopia (Ministry of Finance and Economic Development) , http://www.csa.gov.et , csa@csa.gov.et
Contact(s)	Data Administrator (Ethiopia Central Statistical Agency) , http://www.csa.gov.et , data@csa.gov.et

Access Conditions

The Central Statistical Agency (CSA) is committed to achieving excellence in the provision of timely, reliable and affordable official statistics for informed decision making in order to maximize the welfare of all Ethiopians. This is achieved through the collection and analysis of censuses, surveys and the use of administrative data as well as the dissemination a range of statistical products and providing assistance and services to users.

A microdata dissemination policy is established by CSA to address the conditions and the manner in which anonymized microdata files may be released to users for research purposes. It also strives to identify the different levels of anonymization for different categories of data use. This policy is available at CSA website (www.csa.gov.et <<http://www.csa.gov.et>>).

CSA will release microdata files for use by researchers for scientific research purposes when:

The Director General is satisfied that all reasonable steps have been taken to prevent the identification of individual respondents

The release of the data will substantially enhance the analytic value of the data that have been collected

For all but purely public files, researchers disclose the nature and objectives of their intended research,

It can be demonstrated that there are no credible alternative sources for these data, and

The researchers have signed an appropriate undertaking.

Terms and conditions of use of public data files are the following:

The data and other materials provided by CSA will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement of CSA.

The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.

No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently. Any such discovery would immediately be reported to the CSA. No attempt will be made to produce links among datasets provided by CSA, or among data from the CSA and other datasets that could identify individuals or organizations. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from CSA will cite the source of data in accordance with the Citation Requirement provided with each dataset. An electronic copy of all reports and publications based on the requested data will be sent to CSA. The original collector of the data, CSA, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses.

Cost Recovery Policy:

It is the policy of CSA to encourage broad use of its products by making them affordable for users. Accordingly, CSA attempts to ensure that the costs of creating anonymized microdata files are built-in to the survey budget. At the same time, CSA attempts to recover costs associated with the provisions of special services that benefit only a specific group. Information on the price of each dataset is available at CSA website (www.csa.gov.et)

9	Others	834	22.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#17 P24: Main reason if the problem is government rules

Information	[Type= continuous] [Format=numeric] [Range= 1-4] [Missing=*9]
Statistics [NW/ W]	[Valid=1393 /-] [Invalid=9921 /-]
Literal question	Main reason if the problem is government rules

File Part2(2000 E.F**#17 P24: Main reason if the problem is government rules**

Value	Label	Cases	Percentage
1	Problem In Getting License	386	27.7%
2	Working place not given	644	46.2%
3	No Tax Discount given	182	13.1%
4	Others	181	13.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#18 P251: 1st Information problem

Information	[Type= continuous] [Format=numeric] [Range= 1-7] [Missing=*9]
Statistics [NW/ W]	[Valid=1357 /-] [Invalid=9957 /-]
Literal question	1st Information problem

Value	Label	Cases	Percentage
1	Lack of information on how to perform our duty	322	23.7%
2	Lack of information on what tools of production to use	140	10.3%
3	Lack of information on where to get tools of production	95	7.0%
4	Lack of information on how to get training	152	11.2%
5	Lack of information on market	377	27.8%
6	Not knowing the right government official to get License	27	2.0%
7	Others	244	18.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#19 P252: 2nd Information problem

Information	[Type= continuous] [Format=numeric] [Range= 1-7] [Missing=*9]
Statistics [NW/ W]	[Valid=789 /-] [Invalid=10525 /-]
Literal question	2nd Information problem

Value	Label	Cases	Percentage
1	Lack of information on how to perform our duty	79	10.0%
2	Lack of information on what tools of production to use	128	16.2%
3	Lack of information on where to get tools of production	124	15.7%
4	Lack of information on how to get training	170	21.5%
5	Lack of information on market	219	27.8%
6	Not knowing the right government official to get License	36	4.6%
7	Others	33	4.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#20 P253: 3rd Information problem

Information	[Type= continuous] [Format=numeric] [Range= 1-7] [Missing=*9]
Statistics [NW/ W]	[Valid=514 /-] [Invalid=10800 /-]
Literal question	3rd Information problem

Value	Label	Cases	Percentage
1	Lack of information on how to perform our duty	45	8.8%
2	Lack of information on what tools of production to use	40	7.8%
3	Lack of information on where to get tools of production	48	9.3%
4	Lack of information on how to get training	68	13.2%
5	Lack of information on market	182	35.4%

File Part2(2000 E.F**#20 P253: 3rd Information problem**

Value	Label	Cases	Percentage
6	Not knowing the right government official to get License	78	15.2%
7	Others	53	10.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#21 P26: Number of months the establishment operated in 2000 E.C

Information	[Type= continuous] [Format=numeric] [Range= 1-12] [Missing=*]
Statistics [NW/ W]	[Valid=11314 /-] [Invalid=0 /-] [Mean=9.416 /-] [StdDev=3.11 /-]
Literal question	Number of months the establishment operated in 2000 E.C

#22 P271: 1st major problem that prevented from operating full year?

Information	[Type= continuous] [Format=numeric] [Range= 1-10] [Missing=* /99]
Statistics [NW/ W]	[Valid=5892 /-] [Invalid=5422 /-]
Literal question	1st major problem that prevented from operating full year?

Value	Label	Cases	Percentage
1	Newly Established	1435	24.4%
2	Lack of raw Materials	786	13.3%
3	Lack of spare parts	325	5.5%
4	Lack of market	1173	19.9%
5	Lack of Sufficient working Capital	340	5.8%
6	Shortage of Electric and water supply	709	12.0%
7	Frequent Breakage of Machines	373	6.3%
8	Government Rules and Regulations	56	1.0%
9	The job is seasonal	206	3.5%
10	Others	489	8.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#23 P272: 2nd major problem that prevented from operating full year?

Information	[Type= continuous] [Format=numeric] [Range= 1-10] [Missing=* /99]
Statistics [NW/ W]	[Valid=4138 /-] [Invalid=7176 /-]
Literal question	2nd major problem that prevented from operating full year?

Value	Label	Cases	Percentage
1	Newly Established	78	1.9%
2	Lack of raw Materials	471	11.4%
3	Lack of spare parts	226	5.5%
4	Lack of market	1077	26.0%
5	Lack of Sufficient working Capital	623	15.1%
6	Shortage of Electric and water supply	758	18.3%
7	Frequent Breakage of Machines	313	7.6%
8	Government Rules and Regulations	66	1.6%
9	The job is seasonal	238	5.8%
10	Others	288	7.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#24 P273: 3rd major problem that prevented from operating full year?

Information	[Type= continuous] [Format=numeric] [Range= 1-10] [Missing=* /99]
--------------------	-------------------------------------------------------------------

File Part2(2000 E.F

#24 P273: 3rd major problem that prevented from operating full year?

Statistics [NW/ W] [Valid=2906 /-] [Invalid=8408 /-]

Literal question 3rd major problem that prevented from operating full year?

Value	Label	Cases	Percentage
1	Newly Established	65	2.2%
2	Lack of raw Materials	204	7.0%
3	Lack of spare parts	115	4.0%
4	Lack of market	322	11.1%

9	The job is seasonal	446	15.3%
10	Others	318	10.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#25 P28: Did the establishment try to solve the problem by asking lo

Information [Type= continuous] [Format=numeric] [Range= 1-2] [Missing=*9]

Statistics [NW/ W] [Valid=1354 /-] [Invalid=9960 /-]

Literal question Did the establishment try to solve the problem by asking lo

Value	Label	Cases	Percentage
1	YES	690	51.0%
2	NO	664	49.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#26 P29: What was the main reason for not able to solve the problem o

Information [Type= continuous] [Format=numeric] [Range= 1-6] [Missing=*9]

Statistics [NW/ W] [Valid=690 /-] [Invalid=10624 /-]

Literal question What was the main reason for not able to solve the problem o

Value	Label	Cases	Percentage
1	The loan is insufficient	220	31.9%
2	Requirements to get loan	177	25.7%
3	Interest rate for loan is high	43	6.2%
4	Short loan period	52	7.5%
5	Inefficiency of bank and other offices	134	19.4%
6	Others	64	9.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#27 P210: Type of book account

Information [Type= continuous] [Format=numeric] [Range= 1-3] [Missing=*9]

Statistics [NW/ W] [Valid=11311 /-] [Invalid=3 /-]

Literal question Type of book account

Value	Label	Cases	Percentage
1	It has full book of accounts	429	3.8%
2	It has only income and expenditure list	1818	16.1%

File Part2(2000 E.F**#27 P210: Type of book account**

Value	Label	Cases	Percentage
3	It has on any book of account	9064	80.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#28 P211: Type of ownership

Information [Type= continuous] [Format=numeric] [Range= 1-7] [Missing=*9]

Statistics [NW/ W] [Valid=11311 /-] [Invalid=3 /-]

Literal question Type of ownership

Value	Label	Cases	Percentage
1	Individual	9875	87.3%
2	Partnership	878	7.8%
3	Share Company	32	0.3%
4	Private Limited Company	20	0.2%
5	Cooperative	317	2.8%
6	Government	18	0.2%
7	Others	171	1.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#29 P2121: Owners Male

Information [Type= continuous] [Format=numeric] [Range= 0-658] [Missing=*]

Statistics [NW/ W] [Valid=11314 /-] [Invalid=0 /-] [Mean=1.366 /-] [StdDev=11.352 /-]

Literal question Owners Male

#30 P2122: Owners Female

Information [Type= continuous] [Format=numeric] [Range= 0-317] [Missing=*]

Statistics [NW/ W] [Valid=11314 /-] [Invalid=0 /-] [Mean=0.301 /-] [StdDev=4.143 /-]

Literal question Owners Female

#31 P2123: Owners Total

Information [Type= continuous] [Format=numeric] [Range= 0-665] [Missing=*]

Statistics [NW/ W] [Valid=11314 /-] [Invalid=0 /-] [Mean=1.667 /-] [StdDev=12.612 /-]

Literal question Owners Total

#32 P2131: Initial paid up capital, ethiopian male

Information [Type= continuous] [Format=numeric] [Range= 0-999999999] [Missing=*]

Statistics [NW/ W] [Valid=11314 /-] [Invalid=0 /-] [Mean=110184.895 /-] [StdDev=9403185.76 /-]

Literal question Initial paid up capital, ethiopian male

#33 P2132: Initial paid up capital, ethiopian female

Information [Type= continuous] [Format=numeric] [Range= 0-400750] [Missing=*]

Statistics [NW/ W] [Valid=11314 /-] [Invalid=0 /-] [Mean=2162.208 /-] [StdDev=13012.39 /-]

Report on small scale manufacturing industries survey 2002E.F.Y(2007-2008), Central Statistical Agency, April 2010, Ethiopia [eth], English [eng], "Doc\Reports\Small_Scale_Report_2010.pdf"

Abstract

In overall economic development, a critically important role is played by micro, small and medium enterprises in the developing world. The vast majority of countries rely on the dynamism, resourcefulness and risk-taking of private enterprises (to which most small scale manufacturing enterprises belong) to trigger, sustain the process, and form the base for private sector led economic growth. In this regard, small scale manufacturing industries are playing an ever-increasing role in the manufacturing industrial structure of the country. Expansion and development of the sector increases agricultural productivity through providing agricultural inputs and creating demand for agricultural outputs. Furthermore, small scale manufacturing industries play a key role in stimulating other sectors of the economy such as trade, construction and services and in reducing unemployment. Basic data on manufacturing output, input, employment, fixed assets, investment and capacity are of paramount importance for designing and formulating industrial development programs, strategies and policies.

Owing to this fact, and in an effort to provide comprehensive, accurate, reliable and timely data on a regular basis on the country's manufacturing sector the Central Statistical Agency /CSA/ has conducted for the fourth time in 2001 E.F.Y. (2008/09) a survey on small scale manufacturing industries.

Manufacturing is defined here according to International Standard Industrial Classification (ISIC Revision -3.1) as " the physical or chemical transformation of materials or components into new products, whether the work is performed by power -driven machines or by hand, whether it is done in a factory or in the worker's home, and whether the products are sold at wholesale or retail. The assembly of the component parts of manufactured products is also considered as manufacturing activities." For this survey grain milling services are also considered as manufacturing activities.

The surveys of manufacturing activities are designed to provide basic information on the characteristics, structure and performance of Cottage and Handicraft, Small, Medium and Large Scale Manufacturing Industries. To attain these objectives, manufacturing establishments are divided into three major groups. These are: -

- a) Large and Medium Scale Manufacturing Establishments, engaging 10 or more persons and using power -driven machinery.
- b) Small Scale Manufacturing Establishments engaging less than 10 persons and use power -driven machinery.
- c) Cottage/Handicraft Manufacturing Establishments performing their activities by hand (i.e., using non -power driven machinery).

This bulletin presents results of Small Scale Manufacturing Industries survey for the reference period 2007/08 (2000 E.F.Y.). The report provides information on objectives, scope, coverage and content, basic concepts and definitions, survey methodology, training of field staff, field organization and summary tables by structure and performance and problems encountered by Small Scale Manufacturing Industries. Furthermore, the questionnaire and estimation procedures for the survey are attached as an Annex.

Table of Contents

CONTENTS
PAGE NO.

List of Tables II
List of Figures V
Abbreviations V

Part I. Introduction and Objectives of the Survey

1.1 Introduction 1
1.2 Objectives 2
1.3 Basic Concepts and Definitions 4

Part II. Survey Methodology, Data Collection and Processing

2.1 Scope and Coverage 11
2.2 Sampling Frame 12

2.3 Sample Design 12
 2.4 Sample Size and Selection Scheme 12
 2.5 Training of Field Staff 13
 2.6 Field Organization 13
 2.7 Data Processing 13
 A. Editing, Coding and Verification 13
 B. Data Entry, Cleaning and Tabulation 14

Part III. Summary of Major Findings of The Survey

3.1 Structure and Performance 15
 3.2 Employment 17
 3.3 Raw Materials and Energy Consumption 19
 3.4 Demographic Characteristics of Persons Engaged 21
 3.5 Ownership and Problems Faced 24

Part IV. Statistical Tables on Small Scale Manufacturing Industries: 2007/08 (2000 E.F.Y.) 37

Annex 122
 Survey Questionnaire 125

PART III SUMMARY OF MAJOR FINDINGS

TABLE NO. PAGE NO.

Summary Table 3.1 Distribution of Number of Establishments, Number of Persons Engaged, Gross Value of Production and Value Added by Industrial Group: 2007/08 (2000 E.F.Y.) 16
 Summary Table 3.2 Permanent Employees as Percentage of Total Persons Engaged by Industrial Group: 2007/08 (2000 E.F.Y.) 17
 Summary Table 3.3 Number of Persons Engaged, Employees and Labor Cost Per Establishments by Industrial Group: 2007/08 (2000 E.F.Y.) 18
 Summary Table 3.4 Cost of Raw Material and Energy Consumed as Percentage of Total Industrial Cost and Ratio of Imported to Total Raw Material Cost by Industrial Group: 2007/08 (2000 E.F.Y.) 20
 Summary Table 3.5 Number of Persons Engaged by Sex and Type of Worker: 2007/08 (2000 E.F.Y.) 22
 Summary Table 3.6 Number of Reported Persons Engaged by Literacy Status and Sex: 2007/08 (2000 E.F.Y.) 22
 Summary Table 3.7 Number of Literate Persons Engaged by Sex and Highest Grade Completed: 2007/08 (2000 E.F.Y.) 23
 Summary Table 3.8 Number of Persons Engaged By Type and Duration of Training and Sex: 2007/08 (2000 E.F.Y.) 23
 Summary Table 3.9 Number of Owners of Establishments and Permanent Employees by Sex: 2007/08 (2000 E.F.Y.) 24
 Summary Table 3.10 Number of Reporting Establishments by Industrial Group and Type of First Major Problem Faced at the Starting of Operation: 2007/08 (2000 E.F.Y.) 25
 Summary Table 3.11 Number of Reporting Establishments by Industrial Group and First Major Reason for Not Fully Operational During: 2007/08 (2000 E.F.Y.) 26
 Summary Table 3.12 Number of Reporting Establishments by Industrial Group and First Major Reason for Not Working at Full Capacity: 2007/08 (2000 E.F.Y.) 27
 Summary Table 3.13 Number of Reporting Establishments by Industrial Group and First Major Reason Faced During the Survey Period: 2007/08 (2000 E.F.Y.) 29
 Summary Table 3.14 Number of Establishments by Industrial Group and Type of Government Influence: 2007/08 (2000 E.F.Y.)
 30
