Ethiopia (1998)

Large and Medium Manufacturing and Electricity Industries Survey 1996-1997 (1989 E.C) (LMMIS 1997)

Overview	
Type	Enterprise/Establishment Census [en/census]
Identification	ETH-CSA-LMMIS-1997-v1.1
Version	Version 1.0: Edited and non-anonymous dataset for internal use only.
<p>Abstract</p> <p>Manufacturing is defined here according to International Standard Industrial Classification as "the physical or chemical transformation of materials or components into new products, whether the work is performed by power-driven machines or by hand, whether it is done in a factory or in the worker's home, and whether the products are sold at wholesale or retail. The assembly of the component parts of manufactured products is also considered as manufacturing activities."</p> <p>The presence of adequate and current statistical data in various economic sectors that are considered essential for development planning, socio-economic policy formulation and economic analysis is vital in promoting the economic development of a country. Based on this general objective, the Central Statistical Authority (CSA) has been conducting surveys of various economic activities of which the annual Large and Medium Scale Manufacturing Industries survey is one.</p> <p>In this survey attempt was made to update the directory using as source of information the licenses issued by the Ministry of Industry and corresponding bureaux of the Regional States of the country for the public and private establishments including co-operatives. Furthermore, due to various efforts made to include all the establishments under the scope of the survey, in this reference year the number of establishments covered by the survey increased by 140 than that of the previous survey period.</p> <p>The survey questionnaire is designed to answer questions about number of establishments, number of persons engaged, wages and salaries paid by industrial group, sex, nationality and occupation, paid-up capital, gross value of production, industrial and non-industrial costs. value added, operating surplus, quantity of production and raw materials consumed, fixed assets, investment and production capacity and etc., .</p>	
Kind of Data	Census/enumeration data [cen]
Unit of Analysis	Establishment

Scope & Coverage

Scope

The scope of Large and Medium Manufacturing Industries Surveys includes:

- Identification particulars
- Basic Information about the Establishment
- Number of Persons Engaged And Wages and Salaries Paid (in Birr)
- Products , Sales and Services of the Establishment (in Birr)
- Value of Stocks Raw Material Purchase And CGS (in Birr)
- Cost and Quantity of Raw Materials, Parts and Containers Used (Value in Birr)
- Fixed Assets and Investment (in Birr)
- Quantity and Value of Production at Full Capacity, Required Raw Material and other General Questions

Keywords

Manufacturing, An Establishment, Paid-up Capital, Working Proprietors, Active Partners and Family Workers, Administrative and Technical Employees, Production Workers, Seasonal and Temporary Workers, Number Employed, Number Engaged, Basic Wages

and Salaries, Wages and Salaries, Commissions, Bonuses, Professional and Hardship Allowances, Supplements to Wages and Salaries of Employees, Revenue from Sales, Receipt from Industrial Services Rendered to Others, Receipt of Products Bought and Resold, Other Receipts, Difference of Stocks in the Value of Finished Goods and Semi-Finished Goods, Gross Value of Production, Raw Materials, Other Industrial Services Rendered by Others, Industrial Cost, Non-industrial Cost, Census Value Added (at market price), Value Added in the National Account Concept (at market price), Fixed Capital Assets, New Capital Expenditure, Operating Surplus, Public Sector, Intermediate Cost (for electricity industry), Capacity, Tariff, Domestic Tariff, Street Lighting Tariff, Commercial Tariff, Industrial Tariff, Number of establishments covered by the report, Number of establishments with response

Geographic Coverage

National

Universe

The universe of the large and medium scale manufacturing survey is confined to those establishments which engaged 10 persons and above and use power-driven machines and covers both public and private industries.

Producers & Sponsors**Primary Investigator(s)**

Central Statistical Agency, Ministry of Finance and Economic Development

Funding Agency/ies

Government of Ethiopia

Sampling**Sampling Procedure**

The survey covers all large and medium manufacturing industries which engage 10 persons or more and use power-driven machines

Data Collection**Data Collection Dates**

Gregorian calendar (G.C.): start 1998-04
Gregorian calendar (G.C.): end 1998-06

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes**Training of Field Staff:**

In the Large and Medium Scale Manufacturing Industries Survey, after updating the directory, questionnaires and instruction manuals and all relevant materials were prepared and printed in advance. Then, the training of all field staff were carried out for six days at the head office. In this training, statisticians from the Central Statistical Authority's branch statistical office and the head office, field supervisors, and enumerators were involved.

The training which was expected to ensure the quality of the data consisted of class room discussions, filling - in questionnaires by trainees for practice using financial statements of selected establishments were made and the errors were pointed out to the trainees, so that these wouldn't be repeated during the actual data collection.

Methods of Data Collection and Field Organization:

All CSA Statistical Branch Offices were involved in this survey. Accordingly, 15 assistant heads of Branch Statistical Offices, overall about 64 enumerators and supervisors (43 from Region-14 and 21 from other CSA Branch Offices), 24 supervisors and 8 statisticians form the Head Office and about 24 drivers (8 from Region 14 and 16 from the rest of the branches) were involved in the data collection activity.

In Region 14 Branch Statistical Office, where the majority of the establishments under the scope of the survey are located, enumerators were organized into teams and each team on the average constituted of five enumerators and a field editor (a supervisor). The supervisor was provided with a four-wheel drive vehicle and a driver. Prior to the deployment of the teams, at Head Office, the establishments under the scope of the survey were divided among the teams, in accordance with their location. Then, each enumerator was assigned to collect data from 15 establishments on an average. The data collection operation was carried out in collaboration with the concerned personnel of each establishment. Due to the deployment of sufficient logistics and manpower and other organizational measures taken, the data collection activity took 30-45 days in most of the regions of the country.

Questionnaires

The questionnaire contains the following section/ items:

Item 1.1. Address of the establishments: This section has variables that identify the questionnaire uniquely. The variables are; Killil, Zone, Wereda, Town, Higher, Kebele, House no, Year, ISIC, Establishment no, Telephone no and P.O.Box codes or numbers.

Item 1.2. Address of Head Office if Separated From Factory: In this section information about factory head office is collected (if the factory is separated from the head office). The variables used to collect the information are; Killil, Zone, Wereda, Town, Higher, Kebele, House no, Telephone no and P.O.Box.

Item 2. Basic Information About The Establishment: This section has questions related to basic information about the establishment.

Item 3.1. Number of Persons Engaged: This section has variables (questions) that used to collect establishment's employees number by employees occupation.

Item 3.2. Number of Persons Engaged by Educational Status: This section has variables (questions) that used to collect establishment's employees number by their educational status.

Item 3.3. Number of Persons Engaged by Age Group: Contains variables that used to collect information about employees number by employees age group.

Item 3.4. Wages and Salaries and Other Employee Benefits Paid: This section has variables related to wages and other employees benefits by employee occupation.

Item 3.5. Number of Permanent Employees by Basic Salary Group: This section has variables related to salary groups by sex of employees

Item 4.1. Products and By-products: This section has questions related to product produced, produced quantity and sales.

Item 4.2. Service and Other Receipts: Contains questions related to income from different source other than selling the products.

Item 5. Value of Stocks: Contains questions that related to information about materials in the stock.

Item 6.1. Cost and Quantity of Raw Materials, Parts and Containers Used: This section has questions related to principal raw materials, raw material type, quantity, value and source (local or imported).

Item 6.2. Other Industrial Costs: This sections has questions related to other industrial costs including cost of energy and other expenses.

Item 6.3. Other Non-industrial Expenses: Contains questions related to non-industrial expenses like license fee, advertising, stationary, etc.

Item 6.4. Taxes Paid: This section has questions related to taxes like indirect tax and income tax.

Item 7. Fixed Assets and Investment: This section has questions related to fixed assets and investment on fixed assets and working capital.

Item 8.1. Annual Production at Full Capacity: This section has questions about quantity and value of products if the establishment uses its full capacity.

Item 8.2. Estimated Value and Quantity of Raw Materials Needed, at Full Capacity: This section has questions about the estimate of quantity and value of raw materials that needed to function at full capacity.

Item 8.3. The three major problems that prevented the establishment from operating at full capacity.

Item 8.4. The three major problems that are facing the establishment at present.

Data Processing & Appraisal

Data Editing

Editing, Coding and Verification:

A number of quality control steps were taken to ensure the quality of data. The first step taken in this direction was, to revise the questionnaire, to make it easier for internal consistency checking or editing, both at field and office level. Furthermore, based on this revised questionnaire, revised instruction manual with field editing procedures were prepared in Amharic for both enumerators and supervisors (field editors). Using this manual, some editing and coding were carried out by field editors during the data collection stage. After the majority of the completed questionnaires were brought back to head office, final editing, coding and verification were performed by editors, statistical technicians and statisticians. Finally, the edited and coded questionnaires were checked and verified by other senior professionals.

Data Entry, Cleaning and Tabulation:

The data were entered and verified on personal computers IMPS (Integrated Microcomputer Processing System) Software. Twelve CSA data entry staff and one data cleaner participated in this activity for fifteen days with close supervision of the activities by two professionals. Then, the data entered were cleaned using personal computers in combination with manual cleaning for some serious errors. Finally, the tabulation of the results was processed using the IMPS (Integrated Microcomputer Processing System) software by one programmer with technical assistance from Industry, Trade and Services Statistics Department staff.

Accessibility

Access Authority	Central Statistical Agency (Ministry of Finance and Economic Development) , http://www.csa.gov.et , csa@csa.gov.et
Contact(s)	Data Administrator (Ethiopia Central Statistical Agency (CSA)) , http://www.csa.gov.et , data@csa.gov.et

Access Conditions

The Central Statistical Agency (CSA) is committed to achieving excellence in the provision of timely, reliable and affordable official statistics for informed decision making in order to maximize the welfare of all Ethiopians. This is achieved through the collection and analysis of censuses, surveys and the use of administrative data as well as the dissemination a range of statistical products and providing assistance and services to users.

A microdata dissemination policy is established by CSA to address the conditions and the manner in which anonymized microdata files may be released to users for research purposes. It also strives to identify the different levels of anonymization for different categories of data use. This policy is available at CSA website (<http://www.csa.gov.et>).

CSA will release microdata files for use by researchers for scientific research purposes when:

The Director General is satisfied that all reasonable steps have been taken to prevent the identification of individual respondents.

The release of the data will substantially enhance the analytic value of the data that have been collected For all but purely public files, researchers disclose the nature and objectives of their intended research, It can be demonstrated that there are no credible alternative sources for these data, and

The researchers have signed an appropriate undertaking.

Terms and conditions of use of public data files are the following:

The data and other materials provided by CSA will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement of CSA.

The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.

No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently. Any such discovery would immediately be reported to the CSA.

No attempt will be made to produce links among datasets provided by CSA, or among data from the CSA and other datasets that could identify individuals or organizations.

Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from CSA will cite the source of data in accordance with the Citation Requirement provided with each dataset.

An electronic copy of all reports and publications based on the requested data will be sent to CSA.

The original collector of the data, CSA, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses.

Cost Recovery Policy:

It is the policy of CSA to encourage broad use of its products by making them affordable for users. Accordingly, CSA attempts to ensure that the costs of creating anonymized microdata files are built-in to the survey budget.

At the same time, CSA attempts to recover costs associated with the provisions of special services that benefit only a specific group. Information on the price of each dataset is available at CSA website (www.csa.gov.et)

Variables Description

Dataset contains 369 variable(s)

File Annual_investment_by_type_and_source_part72			
#1 eid: Enterprise id			
Information	[Type= discrete] [Format=numeric] [Range= 15110003-36102837] [Missing=*]		
Statistics [NW/ W]	[Valid=1363 /-] [Invalid=0 /-]		
Literal question	Enterprise id		
Recoding and Derivation	This variable is derived by combining two variables, i.e. ISIC and establishment. The enterprise id is unique for each questionnaire.		
#2 region: Region code			
Information	[Type= discrete] [Format=numeric] [Range= 1-15] [Missing=*]		
Statistics [NW/ W]	[Valid=1363 /-] [Invalid=0 /-]		
Literal question	Region code		
Value	Label	Cases	Percentage
1	TIGRAY	46	3.4%
2	AFAR	4	0.3%
3	AMHARA	86	6.3%
4	OROMIA	179	13.1%
5	SOMALIE	2	0.1%
6	BENSHANGUL	0	0.0%
7	S.N.N.P.R.	130	9.5%
12	GAMBELA	6	0.4%
13	HARARI	14	1.0%
14	ADDIS ABABA	857	62.9%
15	DIRE DAWA	39	2.9%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
#3 zone: Zone code			
Information	[Type= discrete] [Format=numeric] [Range= 1-71] [Missing=*]		
Statistics [NW/ W]	[Valid=1363 /-] [Invalid=0 /-]		
Literal question	Zone code		
#4 wereda: Wereda code			
Information	[Type= discrete] [Format=numeric] [Range= 1-35] [Missing=*]		
Statistics [NW/ W]	[Valid=948 /-] [Invalid=415 /-]		
Literal question	Wereda code		
#5 town: Town code			
Information	[Type= discrete] [Format=numeric] [Range= 1-106] [Missing=*]		
Statistics [NW/ W]	[Valid=1363 /-] [Invalid=0 /-]		
Literal question	Town code		
<i>Frequency table not shown (105 Modalities)</i>			
#6 kefetgna: Kefetegna number			
Information	[Type= discrete] [Format=numeric] [Range= 1-65] [Missing=*]		
Statistics [NW/ W]	[Valid=1168 /-] [Invalid=195 /-]		

File Annual_investment_by_type_and_source_part72

#6 kefetgna: Kefetegna number

Literal question Kefetegna number

#7 kebele: Kebele number

Information [Type= discrete] [Format=numeric] [Range= 1-88] [Missing=*]

Statistics [NW/ W] [Valid=1270 /-] [Invalid=93 /-]

Literal question Kebele number

#8 houseno: House number

Information [Type= discrete] [Format=numeric] [Range= 0-4858] [Missing=*]

Statistics [NW/ W] [Valid=886 /-] [Invalid=477 /-]

Literal question House number

#9 srefyear: Survey reference year

Information [Type= discrete] [Format=numeric] [Range= 1990-1990] [Missing=*]

Statistics [NW/ W] [Valid=1363 /-] [Invalid=0 /-]

Literal question Survey reference year

Value	Label	Cases	Percentage
1989		1363	100.0%
1990	1990 (1997/1998)	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#10 isic: International standard industrial classification (ISIC)

Information [Type= discrete] [Format=numeric] [Range= 1511-3610] [Missing=*]

Statistics [NW/ W] [Valid=1363 /-] [Invalid=0 /-]

Literal question International standard industrial classification (ISIC)

Value	Label	Cases	Percentage
1511	Production, processing and preserving of meat, fruit and veg	7	0.5%
1514	manufacture of edible oil	49	3.6%
1520	Manufacture of dairy products	2	0.1%

#10 isic: International standard industrial classification (ISIC)

Value	Label	Cases	Percentage
1920	manufacture of footwear	93	6.8%
2000	Manufacture wood and wood products	40	2.9%
2100	Manufacture of paper and paper products	17	1.2%
2200	Publishing and printing services	63	4.6%
2411	Manufacture of basic chemicals except fertilizers	8	0.6%
2422	Manufacture of paints varnishes	14	1.0%
2423	Manufacture of pharmaceuticals, medicinal	4	0.3%
2424	Manufacture of soap detregents, perfumes..	58	4.3%
2429	Manufacture of chemical productsNEC	9	0.7%
2510	Manufacture of rubber	8	0.6%
2520	Manufacture of plastics	35	2.6%
2610	Manufacture of glass and glass products	4	0.3%
2691		3	0.2%
2693	Manufacture of structural clay products	9	0.7%
2694	Manufacture of cement ,lime and plaster	12	0.9%
2695	Manufacture of articles of concrete, cement	129	9.5%
2699	Manufacture of non-metalic NEC	14	1.0%
2710	Manufacture of basic iron and steel	11	0.8%
2811	Manufacture of structural metal products	60	4.4%
2892	Manufacture of cuttlery hand tools....	5	0.4%
2893	Manufacture of other fabricated metal products	7	0.5%
2899	Manufacture of pumps,compressors, valves and taps	11	0.8%
2912		2	0.1%
2914	Manufacture of ovens	6	0.4%
2919		5	0.4%
2925	Manufacture of other general purpose machnery	13	1.0%
2929		2	0.1%
3140	Manufacture of battries	2	0.1%
3420	manufacture of bodies for mothor vechiles	18	1.3%
3430	manufacture of parts and accessaries	2	0.1%
3610	Manufacture of furniture	236	17.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#11 estabno: Establishment number

Information	[Type= discrete] [Format=numeric] [Range= 1-9999] [Missing=*]
Statistics [NW/ W]	[Valid=1363 /-] [Invalid=0 /-]
Literal question	Establishment number

#12 phoneno: Telephone number

Information	[Type= discrete] [Format=numeric] [Range= 1-812516] [Missing=*]
Statistics [NW/ W]	[Valid=1229 /-] [Invalid=134 /-]
Literal question	Telephone number

#13 pobox: P.O.Box number

Information	[Type= discrete] [Format=numeric] [Range= 1-90319] [Missing=*]
-------------	--

File Annual_investment_by_type_and_source_part72

#13 pobox: P.O.Box number

Statistics [NW/ W] [Valid=964 /-] [Invalid=399 /-]

Literal question P.O.Box number

#14 p72c1: Source of financing

Information [Type= discrete] [Format=numeric] [Range= 1-6] [Missing=*]

Statistics [NW/ W] [Valid=1363 /-] [Invalid=0 /-]

Definition This variable is part of section 7.2 (Annual Investment by Type and Source) of the questionnaire

Literal question Source of financing

Value	Label	Cases	Percentage
1	Total domestic source	619	45.4%
2	Own fund	579	42.5%
3	Bank loan	114	8.4%
4	Others	47	3.4%
5	Foreign source	4	0.3%
6	Total	0	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

#15 p72c3: Investment on fixed assets

Information [Type= continuous] [Format=numeric] [Range= 250-50006750] [Missing=*]

Statistics [NW/ W] [Valid=632 /-] [Invalid=731 /-] [Mean=955575.457 /-] [StdDev=2381588.587 /-]

Definition This variable is part of section 7.2 (Annual Investment by Type and Source) of the questionnaire

Literal question Investment on fixed assets in Birr

#16 p72c4: Working capital

Information [Type= continuous] [Format=numeric] [Range= 367-167267633] [Missing=*]

Statistics [NW/ W] [Valid=1232 /-] [Invalid=131 /-] [Mean=4075662.728 /-] [StdDev=16644923.039 /-]

Definition This variable is part of section 7.2 (Annual Investment by Type and Source) of the questionnaire

Literal question Working capital in Birr

File Annual_production_at_full_capacity_part81

#1 eid: Enterprise id

Information [Type= discrete] [Format=numeric] [Range= 15110002-36102837] [Missing=*]

Statistics [NW/ W] [Valid=2754 /-] [Invalid=0 /-]

Literal question Enterprise id

Recoding and Derivation This variable is derived by combining two variables, i.e. ISIC and establishment. The enterprise id is unique for each questionnaire.

#2 region: Region code

Information [Type= discrete] [Format=numeric] [Range= 1-15] [Missing=*]

Statistics [NW/ W] [Valid=2754 /-] [Invalid=0 /-]
